DECISION

Mineral Materials Site Inactive – Case Expired and Closed

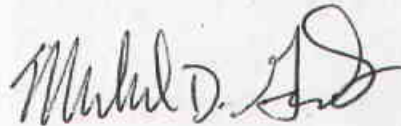

The Cruz Free Use Permit (FUP) for extraction of mineral materials, sand and gravel, was authorized by the Fillmore Field Office, Bureau of Land Management (BLM), on July 16, 1982. The FUP pit is located near Clay Spring south of Garrison, Utah in Section 10 of Township 23 South, Range 09 West. The FUP authorization for this location was recorded as expired on July 16, 1992. The Bureau of Land Management (BLM) case file number for your FUP is UTU-72840. Please refer to this number in future correspondence.

A field inspection by a member of the Fillmore Field Office staff on May 21, 2012 found no evidence of extraction activity in recent years. The pit walls are sloped, and site has adequate earthwork. The access road to the pit is overgrown with vegetation and barely recognizable, and the surface disturbance area of the pit now has sparse mature vegetation.

The case file for this Free Use Permit has therefore been closed. The BLM now considers the site to be adequately reclaimed.

If you have any questions, please contact Duane Bays, BLM Fillmore Field Office Natural Resource Specialist, at 435-743-3115, or Jerry Mansfield, BLM Fillmore Field Office Geologist, at 435-743-3125.

Sincerely,

Michael D. Gates
Field Manager
